

Volume and spending rankings identify different OD leaders

(a) Top-ten overlap

(b) Leading OD pair under each ranking criterion

Highest trip volume			Highest aggregate passenger spending		
	Yellow Apr	Upper East Side S. (237) → Upper East Side N. (236) 26,749 trips		JFK Airport (132) → Outside NYC (265)	\$0.86M
	Uber Apr	East New York (76) → East New York (76) 57,764 trips		JFK Airport (132) → Outside NYC (265)	\$8.22M
	Lyft Apr	East New York (76) → East New York (76) 25,065 trips		LaGuardia Airport (138) → Outside NYC (265)	\$2.08M
	Yellow May	Upper East Side S. (237) → Upper East Side N. (236) 28,964 trips		JFK Airport (132) → Outside NYC (265)	\$0.79M
	Uber May	East New York (76) → East New York (76) 56,166 trips		JFK Airport (132) → Outside NYC (265)	\$7.93M
	Lyft May	East New York (76) → East New York (76) 28,444 trips		JFK Airport (132) → Outside NYC (265)	\$2.84M

Key result: busiest corridors and highest-spending corridors are not interchangeable; airport/outside-NYC flows dominate the spending leaders.
